The download and use of any new version, upgrade or update of the Software shall require the prior acceptance by the Licensee of the terms and conditions of the Agreement (as amended, should that be the case, in accordance with section 17 below).

The download and use of any add-on of the Software shall be governed by the specific terms and conditions accepted by the

Licensee when downloading the relevant add-on of the Software or, in its absence, by the terms and conditions of the last version of the Agreement accepted by the Licensee when downloading the Software or any of its new versions, upgrades or updates.

All intellectual and/or industrial property rights over the new versions, upgrades, updates or add-ons of the Software shall exclusively belong to the Licensor or its licensors.

7. NATURE OF THE SOFTWARE

7.1 On-premise software

The Software is an on-premise software that requires its installation in Licensee's compatible computing systems (the "Systems") which must comply with the necessary minimum specifications set out in the Instructions (the "Software Technical Requirements"). It is the Licensee's sole responsibility that the System complies with said requirements. The Licensor disclaims any liability for any incidence or malfunction of the Software that may arise as a consequence of the Systems or the integration of the Software thereto. The Licensee acknowledges and accepts that some of the features of the Software may not be fully operational due to the characteristics of the Systems.

The Licensee shall be solely responsible for adopting appropriate security measures to protect the Software at the Location. The Licensor shall in no event be liable for the adequacy of such measures and the impact they may have on the Software. In any case, the Licensee shall immediately notify the Licensor of any security incidents relating to the Software of which it may become aware and keep the Licensor harmless of any damages or prejudices arising therefrom.

7.2 Open source software

In the event that the Software contains components provided by third parties under an open source software licensing model, these will be identified following the terms set therein.

8. CONSIDERATION

The fees for the License of the initial version of the Software shall be those separately agreed by the Licensee and the Licensor or any of its Authorized Distributors, considering the specific subscription contracted by the Licensee.

The Licensor reserves the right to introduce in the future any consideration it may deem appropriate for the download and/or use of new versions, upgrades, updates or add-ons of the Software. In such case, the Licensor shall notify the Licensee sufficiently in advance the applicable terms and conditions.

Any and all intellectual property rights over the Software exclusively belong to Salto and/or its licensors, as applicable.

The Licensee expressly acknowledges and agrees that by virtue of this Agreement no intellectual or industrial property rights of any nature relating to the Software or the Open Source Software are transferred, assigned or made available to the Licensee.

The Licensee shall not, either directly or indirectly, take any action to jeopardize, limit, interfere with, or dispute in any manner, the intellectual and industrial property rights of the Licensor's and/or its licensors over the Software or the Open Source

Software. In particular, the Licensee shall not apply for or register, directly or through any third party, anywhere in the world, any industrial or intellectual property rights relating to the Software.

The Licensee must inform the Licensor of any circumstances of any nature of which it becomes aware that may affect the intellectual or industrial property rights associated to Software or the Open Source Software.

Should the Licensee breach this undertaking, the Licensor may be entitled to be indemnified for all damages and losses (including loss of profits) caused to the Licensor or any of its Affiliates or Authorized Distributors without limitation whatsoever.

10. WARRANTY

The Licensor hereby warrants, for a period of thirty (30) calendar days following the download of the Software or of any of its updates, upgrades, or add-ons, that the Software will substantially conform to the specifications contained in the Agreement. If, within that warranty period, the Licensee notifies the Licensor or the relevant Authorized Distributor a nonconformance and the Licensor or the relevant Authorized Distributor validates the existence of such nonconformance due to reasons solely attributable to the Licensor, the Licensor shall repair or replace the nonconforming Software. The aforementioned warranty shall not apply if the Licensee has breached, breaches or in any manner is in breach of, any of the provisions set forth in this Agreement.

Except for the limited warranty set forth in the preceding paragraph, the Software is delivered "as is", without the Licensor granting any type of warranty over the Software and the Licensee acknowledges and accepts such condition. Therefore, to the maximum extent permitted by law, the Licensor hereby disclaims all implied warranties with regard the Software and makes no other warranty or condition, express or implied, statutory or otherwise, regarding this Software, including without limitation the implied warranty of merchantability, reliability, suitability, quality, adaptability, availability, accuracy fitness for a particular purpose, title and non-infringement. The Licensor does not warrant that the use of the Software will be secure, uninterrupted or that it will operate without errors.

This section contains the sole liability regime applicable to the Software in terms of warranty, with express exclusion, to the maximum extent permitted by law, of any other legal or contractual regime that could be applicable. The Licensee expressly and irrevocably waives any action towards the Licensor in connection with the foregoing.

- The Licensor shall not be liable towards the Licensee in cases where the claims of third parties are caused by errors made by the Licensee, the integrator or any third persons or attributable to its Systems.
- The Licensor shall not be liable towards the Licensee in case of force majeure or fortuitous events.
- The Licensor assumes no liability whatsoever in connection with the integration of the Software with third parties' hardware or systems.
- In no case will the Licensor be liable for indirect, incidental, exemplary, punitive, consequential or special damages (including, among others, loss of profits, business interruption or loss of business information), whatever their nature or origin, arising out of or in connection with this Agreement, even if the Licensor has been advised of the possibility of such damages or could reasonably have foreseen the possibility of such damages.

11.2 Liability of the Licensee

The Licensee shall be liable towards the Licensor for the damages and losses (including loss of profits) caused as a direct and necessary consequence of a material breach of the obligations assumed by the Licensee or any of its directors, managers, employees, advisors or contractors under this Agreement without any limitation whatsoever.

The Licensor may require the Licensee to certify in writing the compliance with the foregoing obligations.

The Licensor reserves the right of blocking the Software or adopting other technical measures to make the Software unusable for the Licensee. The Licensee expressly waives any actions or claims towards the Licensor for the damages or prejudices that such actions may cause to the Licensee.

The provisions of the Agreement which by their terms or nature survive termination, will survive any termination of the Agreement.

12.3 Suspension

Notwithstanding the foregoing, the Licensor reserves the right to temporarily suspend the access or functioning of the

Software when:

- The Licensee is in breach of any of its obligations under the supply or purchase contract by virtue of which acquired the Hardware and/or Software to the Licensor or to any of its Authorized Distributors.
